This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: The potential atheroprotective role of plant MIR156a as a repressor of monocyte recruitment on inflamed human endothelial cells

Authors: Dongxia Hou^{1†}, Fangfang He^{1†}, Lina Ma^{1†}, Minghui Cao^{1†}, Zhen Zhou¹, Zhe Wei¹, Yunxing Xue², Xiaolin Sang¹, Hoshun Chong², Congcong Tian², Shasha Zheng¹, Jing Li¹, Ke Zen¹, Xi Chen¹, Zhi Hong^{1*}, Chen-Yu Zhang^{1*}, Xiaohong Jiang^{1*}

Affiliations:
