Postnatal high-fat diet sex-specifically exacerbates prenatal dexamethasone-induced hypertension: Mass spectrometry-based quantitative proteomic approach

Chien-Ning Hsu, Wan-Tz Lai, Yu-Ju Lin, You-Lin Tain

PII: S0955-2863(17)31047-1
DOI: doi:[10.1016/j.jnutbio.2018.04.006](https://doi.org/10.1016/j.jnutbio.2018.04.006)
Reference: JNB 7971

To appear in:

Received date: 28 November 2017
Revised date: 17 April 2018
Accepted date: 17 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
