This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Select polyphenolic fractions from dried plum enhance osteoblast activity through BMP-2 signaling

Authors: Jennifer L. Graef¹, Elizabeth Rendina-Ruedy¹, Erica K. Crockett¹, Ping Ouyang¹, Jarrod B. King², Robert H. Cichewicz², Edralin A. Lucas¹, and Brenda J. Smith¹

Affiliation: ¹Department of Nutritional Sciences, Oklahoma State University, Stillwater, OK, ²Department of Chemistry and Biochemistry, University of Oklahoma, Norman, OK

Corresponding Author: Brenda J. Smith, Ph.D., 420 College of Human Sciences, Department of Nutritional Sciences, Oklahoma State University, Stillwater, OK 74078; bjsmith@okstate.edu; Phone: 405-744-3866; Fax: 405-744-1357

Key words: functional foods; osteoporosis; polyphenol; osteoblast; bone morphogenetic proteins

Funding: This work was supported by the National Institutes of Health 1R21AT006580-01A1 and the Oklahoma Center for Advancement and Technology HR14-126.
