ApoE is a major determinant of hepatic bile acid homeostasis in mice

Sandra von Hardenberg, Carsten Gnewuch, Gerd Schmitz, Jürgen Borlak

PII: S0955-2863(17)30348-0
DOI: doi: [10.1016/j.jnutbio.2017.09.008](https://doi.org/10.1016/j.jnutbio.2017.09.008)
Reference: JNB 7844

To appear in: *The Journal of Nutritional Biochemistry*

Received date: 19 April 2017
Revised date: 13 July 2017
Accepted date: 9 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ApoE is a major determinant of hepatic bile acid homeostasis in mice

Running title: Bile acid metabolism in ApoE-deficient mice
