Title: GPER1/GPR30 in the brain: Crosstalk with classical estrogen receptors and implications for behavior

Authors: Maria M. Hadjimarkou, Nandini Vasudevan

PII: S0960-0760(17)30111-5

DOI: <http://dx.doi.org/doi:10.1016/j.jsbmb.2017.04.012>

Reference: SBMB 4935

To appear in: *Journal of Steroid Biochemistry & Molecular Biology*

Received date: 31-10-2016

Revised date: 16-4-2017

Accepted date: 23-4-2017

Please cite this article as: Maria M.Hadjimarkou, Nandini Vasudevan, GPER1/GPR30 in the brain: Crosstalk with classical estrogen receptors and implications for behavior, *Journal of Steroid Biochemistry and Molecular Biology* <http://dx.doi.org/10.1016/j.jsbmb.2017.04.012>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

GPER1/GPR30 in the brain: Crosstalk with classical estrogen receptors and implications for behavior.
