

## Accepted Manuscript

Pronounced and sustained cutaneous vasoconstriction during and following cryotherapy treatment: Role of neurotransmitters released from sympathetic nerves

Kevin M. Christmas, Jordan C. Patik, Sepideh Khoshnevis, Kenneth R. Diller, R. Matthew Brothers

PII: S0026-2862(17)30036-5  
DOI: doi: [10.1016/j.mvr.2017.08.005](https://doi.org/10.1016/j.mvr.2017.08.005)  
Reference: YMVRE 3732

To appear in: *Microvascular Research*

Received date: 8 February 2017  
Revised date: 13 August 2017  
Accepted date: 19 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Pronounced and Sustained Cutaneous Vasoconstriction during and Following Cryotherapy  
Treatment: Role of Neurotransmitters Released from Sympathetic Nerves**
