Anti-vascular endothelial growth factor treatment induces blood flow recovery through vascular remodeling in high-fat diet induced diabetic mice

Lamei Xiao, Kai Yan, Yan Yang, Ni Chen, Yongjie Li, Xin Deng, Liquan Wang, Yan Liu, Lin Mu, Rong Li, Mao Luo, Meiping Ren, Jianbo Wu

PII: S0026-2862(16)30005-X
DOI: doi: [10.1016/j.mvr.2016.01.005](https://doi.org/10.1016/j.mvr.2016.01.005)
Reference: YMVRE 3601

To appear in: *Microvascular Research*

Received date: 26 December 2015
Revised date: 21 January 2016
Accepted date: 21 January 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Anti-vascular endothelial growth factor treatment induces blood flow recovery through vascular remodeling in high-fat diet induced diabetic mice
