Phenylalanine ammonia lyase (PAL): From discovery to enzyme substitution therapy for phenylketonuria

Harvey L. Levy, Christine N. Sarkissian, Raymond C. Stevens, Charles R. Scriver

PII: S1096-7192(18)30292-0
DOI: doi:[10.1016/j.ymgme.2018.06.002](https://doi.org/10.1016/j.ymgme.2018.06.002)
Reference: YMGME 6360
To appear in: *Molecular Genetics and Metabolism*
Received date: 16 May 2018
Revised date: 6 June 2018
Accepted date: 7 June 2018

Scriver, Phenylalanine ammonia lyase (PAL): From discovery to enzyme substitution therapy for phenylketonuria. *Ymgme* (2017), doi:[10.1016/j.ymgme.2018.06.002](https://doi.org/10.1016/j.ymgme.2018.06.002)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Phenylalanine Ammonia Lyase (PAL): From Discovery to Enzyme Substitution Therapy for Phenylketonuria
