Lysosomal acid lipase deficiency allograft recurrence and liver failure- clinical outcomes of 18 liver transplantation patients

Donna Lee Bernstein, Steven Lobritto, Alina Iuga, Helen Remotti, Thomas Schiano, Maria Isabel Fiel, Manisha Balwani

PII: S1096-7192(18)30110-0
DOI: doi:[10.1016/j.ymgme.2018.03.010](https://doi.org/10.1016/j.ymgme.2018.03.010)
Reference: YMGME 6336

To appear in: *Molecular Genetics and Metabolism*

Received date: 15 February 2018
Revised date: 21 March 2018
Accepted date: 22 March 2018

Please cite this article as: Donna Lee Bernstein, Steven Lobritto, Alina Iuga, Helen Remotti, Thomas Schiano, Maria Isabel Fiel, Manisha Balwani, Lysosomal acid lipase deficiency allograft recurrence and liver failure- clinical outcomes of 18 liver transplantation patients. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Short Title: LAL-D Liver Transplantation

Funding support: This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

Conflict of interest statement: Donna Lee Bernstein consulted and served on advisory boards for Alexion Pharmaceuticals, Sanofi Genzyme, Shire, BioMarin Pharmaceuticals, received speaking honoraria and serves on the board of directors for the LAL-D Aware patient support group. Manisha Balwani received honoraria from Alexion for participation on advisory boards and is a member of the LAL-D registry scientific advisory board.

Authors contributions: Donna Lee Bernstein conceived and wrote the manuscript. Alina Iuga and Helen Remotti provided pathology images and analyses. Steven Lobritto, Marie Isabel Fiel, Thomas Schiano and Manisha Balwani provided clinical and pathology data, reviewed and edited the manuscript.
