Nitrite ion modifies tyrosine and lysine residues of extracellular matrix proteins

Mai T. Thao, Devi Kalyan Karumanchi, Sally M. Yacout, Elizabeth R. Gaillard

PII: S1089-8603(18)30089-2

DOI: [10.1016/j.niox.2018.07.006](https://doi.org/10.1016/j.niox.2018.07.006)

Reference: YNIOX 1808

To appear in: *Nitric Oxide*

Received Date: 19 March 2018

Revised Date: 26 June 2018

Accepted Date: 24 July 2018

Please cite this article as: M.T. Thao, D.K. Karumanchi, S.M. Yacout, E.R. Gaillard, Nitrite ion modifies tyrosine and lysine residues of extracellular matrix proteins, *Nitric Oxide* (2018), doi: 10.1016/j.niox.2018.07.006.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Nitrite Ion Modifies Tyrosine and Lysine Residues of Extracellular Matrix Proteins
