

## Accepted Manuscript

Title: Induction by Innate Defence Regulator peptide 1018 of pro-angiogenic molecules and endothelial cell migration in a high glucose environment

Authors: Paulina Marin-Luevano, Valentin Trujillo, Adrian Rodriguez-Carlos, Irma González-Curiel, Jose A. Enciso-Moreno, Robert E.W. Hancock, Bruno Rivas-Santiago

PII: S0196-9781(18)30017-2  
DOI: <https://doi.org/10.1016/j.peptides.2018.01.010>  
Reference: PEP 69915

To appear in: *Peptides*

Received date: 3-11-2017  
Revised date: 3-1-2018  
Accepted date: 14-1-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Induction by Innate Defence Regulator peptide 1018 of pro-angiogenic molecules and  
endothelial cell migration in a high glucose environment**

**Running head; IDR-1018 promotes wound healing**
