Title: Ischemic tau protein gene induction as an additional key factor driving development of Alzheimer's phenotype changes in CA1 area of hippocampus in an ischemic model of Alzheimer's disease

Authors: Ryszard Pluta, Anna Bogucka-Kocka, Marzena Ułamek-Kozioł, Jacek Bogucki, Sławomir Januszewski, Janusz Kocki, Stanisław J. Czuczwar

PII: S1734-1140(18)30064-1
DOI: <https://doi.org/10.1016/j.pharep.2018.03.004>
Reference: PHAREP 878

To appear in:

Received date: 31-1-2018
Revised date: 6-3-2018
Accepted date: 15-3-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Ischemic tau protein gene induction as an additional key factor driving development of Alzheimer's phenotype changes in CA1 area of hippocampus in an ischemic model of Alzheimer's disease

Short title: Tau protein gene and brain ischemia
