Effects of heat treatment on enzyme activity and expression of key genes controlling cell wall remodeling in strawberry fruit

Silvia E. Langer, Natalia C. Oviedo, María Marina, José Luis Burgos, Gustavo A. Martínez, Pedro M. Civello, Natalia M. Villarreal

PII: S0981-9428(18)30315-2

DOI: [10.1016/j.plaphy.2018.07.015](https://doi.org/10.1016/j.plaphy.2018.07.015)

Reference: PLAPHY 5338

To appear in: *Plant Physiology and Biochemistry*

Received Date: 16 February 2018

Revised Date: 6 July 2018

Accepted Date: 16 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**HEAT
TREATMENT**
