Accepted Manuscript

Elucidating the substrate specificities of acyl-lipid thioesterases from diverse plant taxa

Rebecca S. Kalinger, Ian P. Pulsifer, Owen Rowland

PII: S0981-9428(18)30128-1

DOI: 10.1016/j.plaphy.2018.03.013

Reference: PLAPHY 5183

To appear in: Plant Physiology and Biochemistry

Received Date: 23 January 2018

Revised Date: 9 March 2018

Accepted Date: 12 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
