Salt stress-induced production of reactive oxygen- and nitrogen species and cell death in the ethylene receptor mutant *Never ripe* and wild type tomato roots

Péter Poór, Judit Kovács, Péter Borbély, Zoltán Takács, Ágnes Szepesi, Irma Tari

PII: S0981-9428(15)30141-8

DOI: [10.1016/j.plaphy.2015.10.021](https://doi.org/10.1016/j.plaphy.2015.10.021)

Reference: PLAPHY 4313

To appear in: *Plant Physiology and Biochemistry*

Received Date: 12 August 2015

Revised Date: 12 October 2015

Accepted Date: 16 October 2015

Tari, Salt stress-induced production of reactive oxygen- and nitrogen species and cell death in the ethylene receptor mutant *Never ripe* and wild type tomato roots, *Plant Physiology et Biochemistry* (2015), doi: 10.1016/j.plaphy.2015.10.021.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Salt stress-induced production of reactive oxygen- and nitrogen species and cell death in the ethylene receptor mutant *Never ripe* and wild type tomato roots
