

## Accepted Manuscript

Title: The fluorescent blue glow of banana fruits is not due to symplasmic plastidial catabolism but arises from insoluble phenols esterified to the cell wall

Author: Axel Tiessen

PII: S0168-9452(18)30690-3  
DOI: <https://doi.org/10.1016/j.plantsci.2018.07.006>  
Reference: PSL 9901

To appear in: *Plant Science*

Received date: 12-6-2018  
Revised date: 17-7-2018  
Accepted date: 19-7-2018

Please cite this article as: Tiessen A, The fluorescent blue glow of banana fruits is not due to symplasmic plastidial catabolism but arises from insoluble phenols esterified to the cell wall, *Plant Science* (2018), <https://doi.org/10.1016/j.plantsci.2018.07.006>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**The fluorescent blue glow of banana fruits is not due to symplasmic plastidial catabolism but arises from insoluble phenols esterified to the cell wall**
