Title: Strigolactones and interaction with auxin regulating root elongation in tall fescue under different temperature regimes

Authors: Qiannan Hu, Shuoxin Zhang, Bingru Huang

PII: S0168-9452(17)31161-5
DOI: <https://doi.org/10.1016/j.plantsci.2018.03.008>
Reference: PSL 9778

To appear in: *Plant Science*

Received date: 8-12-2017
Revised date: 2-3-2018
Accepted date: 10-3-2018

Please cite this article as: Qiannan Hu, Shuoxin Zhang, Bingru Huang, Strigolactones and interaction with auxin regulating root elongation in tall fescue under different temperature regimes, *Plant Science* <https://doi.org/10.1016/j.plantsci.2018.03.008>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Strigolactones and interaction with auxin regulating root elongation in tall fescue
under different temperature regimes
