Title: Strigolactones affect the translocation of nitrogen in rice

Authors: Le Luo, Hongxuan Wang, Xiaohong Liu, Jinqi Hu, Xueli Zhu, Shou Pan, Ruyi Qin, Yifeng Wang, Pingping Zhao, Xiaorong Fan, Guohua Xu

PII: S0168-9452(17)31270-0
DOI: <https://doi.org/10.1016/j.plantsci.2018.02.020>
Reference: PSL 9764

To appear in: *Plant Science*

Received date: 28-12-2017
Revised date: 19-2-2018
Accepted date: 20-2-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Strigolactones affect the translocation of nitrogen in rice

Highlights:

- Mutations of Strigolactone biosynthesis or signaling pathway significantly affect the responses of rice to nitrogen deficiency and nitrogen distribution in shoot.
- Strigolactone analog GR24 can rescue the defect of nitrogen distribution in Strigolactone biosynthesis mutant.
