

# Accepted Manuscript

*In vivo* biotinylated calpastatin improves the affinity purification of human m-calpain

Hung Huy Nguyen, Alexander N. Volkov, Guy Vandebussche, Peter Tompa, Kris Pauwels

PII: S1046-5928(17)30697-6

DOI: [10.1016/j.pep.2018.01.002](https://doi.org/10.1016/j.pep.2018.01.002)

Reference: YPREP 5208

To appear in: *Protein Expression and Purification*

Received Date: 15 November 2017

Revised Date: 14 December 2017

Accepted Date: 5 January 2018

Please cite this article as: H.H. Nguyen, A.N. Volkov, G. Vandebussche, P. Tompa, K. Pauwels, *In vivo* biotinylated calpastatin improves the affinity purification of human m-calpain, *Protein Expression and Purification* (2018), doi: 10.1016/j.pep.2018.01.002.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# ***In vivo* biotinylated calpastatin improves the affinity purification of human m-calpain**

## **Table of contents**

1. Introduction .....	3
2. Materials and Methods .....	3
2.1. Bacterial strains and plasmid transformation .....	3
2.2. Recombinant protein production and <i>in vivo</i> biotinylation of hCSD1 .....	4
2.3. Protein purification procedures .....	4
2.3.1. Purification of various hCSD1 constructs .....	4
2.3.2. Affinity purification of human m-calpain with <i>in vivo</i> biotinylation hCSD1.....	5
2.4. <i>In vitro</i> chemical biotinylation of hCSD1 .....	5
2.5. Electrophoresis and Western blotting.....	5
2.6. Mass spectrometry sample preparation and analysis.....	5
2.6.1 Protein intact mass analysis.....	5
2.6.2 Peptide microsequencing.....	5
2.7. Biophysical characterization .....	6
