

Accepted Manuscript

A simple and efficient method for generating high-quality recombinant Mical enzyme for in vitro assays

Heng Wu, Ruei-Jiun Hung, Jonathan R. Terman

PII: S1046-5928(16)30086-9

DOI: [10.1016/j.pep.2016.05.008](https://doi.org/10.1016/j.pep.2016.05.008)

Reference: YPREP 4932

To appear in: *Protein Expression and Purification*

Received Date: 28 December 2015

Revised Date: 12 May 2016

Accepted Date: 14 May 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A Simple and Efficient Method for Generating High-quality Recombinant Mical Enzyme
for In Vitro Assays**
