

Accepted Manuscript

A comparison of statistical approaches used for the optimization of soluble protein expression in *Escherichia coli*

Christos Papaneophytou, George Kontopidis

PII: S1046-5928(15)30129-7

DOI: [10.1016/j.pep.2015.12.014](https://doi.org/10.1016/j.pep.2015.12.014)

Reference: YPREP 4854

To appear in: *Protein Expression and Purification*

Received Date: 29 August 2015

Revised Date: 16 November 2015

Accepted Date: 18 December 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A comparison of statistical approaches used for the optimization of
soluble protein expression in *Escherichia coli***
