Not Lost in Translation: Emerging Clinical Importance of the G Protein-Coupled Estrogen Receptor GPER

Matthias Barton

PII: S0039-128X(16)00054-4

DOI: <http://dx.doi.org/10.1016/j.steroids.2016.02.016>

Reference: STE 7933

To appear in: *Steroids*

Received Date: 31 January 2016

Revised Date: 13 February 2016

Accepted Date: 22 February 2016

Please cite this article as: Barton, M., Not Lost in Translation: Emerging Clinical Importance of the G Protein-Coupled Estrogen Receptor GPER, *Steroids* (2016), doi: <http://dx.doi.org/10.1016/j.steroids.2016.02.016>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Not Lost in Translation: Emerging Clinical Importance of the G Protein-Coupled Estrogen Receptor GPER

Matthias Barton, M.D.

Molecular Internal Medicine, University of Zurich, Switzerland

Short title: GPER and translational clinical medicine

Abstract word count: 181

Word count: 3297

Number of references: 188

Figure: 1
