Title: Hemolysin of enterohemorrhagic *Escherichia coli*:
Structure, transport, biological activity and putative role in
virulence Mini-Review

Author: Martina Bielaszewska Thomas Aldick Andreas
Bauwens Helge Karch

PII: S1438-4221(14)00056-3
DOI: <http://dx.doi.org/doi:10.1016/j.ijmm.2014.05.005>
Reference: IJMM 50828

To appear in:

Received date: 27-3-2014
Revised date: 9-5-2014
Accepted date: 11-5-2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Hemolysin of enterohemorrhagic *Escherichia coli*: Structure, transport,
biological activity and putative role in virulence**

Mini-Review

Martina Bielaszewska^{1*}, Thomas Aldick¹, Andreas Bauwens, Helge Karch
