

## Accepted Manuscript

Title: Prevalence of autotransporters in *Escherichia coli*: what is the impact of phylogeny and pathotype?

Author: Ingmar Zude Andreas Leimbach Ulrich  
Dobrindt<ce:footnote id="fn1"><ce:note-para  
id="npar0005"><sup>1</sup>Both authors contributed equally to this  
study</ce:note-para></ce:footnote>

PII: S1438-4221(13)00156-2  
DOI: <http://dx.doi.org/doi:10.1016/j.ijmm.2013.10.006>  
Reference: IJMM 50759

To appear in:

Received date: 2-7-2013  
Revised date: 30-9-2013  
Accepted date: 13-10-2013

Please cite this article as: Zude, I., Leimbach, A., Dobrindt, U., Prevalence of autotransporters in *Escherichia coli*: what is the impact of phylogeny and pathotype?, *International Journal of Medical Microbiology* (2013), <http://dx.doi.org/10.1016/j.ijmm.2013.10.006>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Prevalence of autotransporters in Escherichia coli: what is the impact of phylogeny and**  
2 **pathotype?**
