Implication of ITS phylogeny for biogeographic analysis, and comparative study of morphological and molecular interspecies diversity in Indian Impatiens

Asif S. Tamboli, Jagdish V. Dalavi, Swapnil M. Patil, Shrirang R. Yadav, Sanjay P. Govindwar

PII: S2214-5400(18)30020-3
DOI: doi:[10.1016/j.mgene.2018.02.005](https://doi.org/10.1016/j.mgene.2018.02.005)
Reference: MGENE 404
To appear in: *Meta Gene*
Received date: 7 December 2017
Revised date: 27 January 2018
Accepted date: 19 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Implication of ITS phylogeny for biogeographic analysis, and comparative study of morphological and molecular interspecies diversity in Indian *Impatiens*
