Next Generation Sequencing and mass spectrometry reveal high taxonomic diversity and complex phytoplankton-phycotoxins patterns in Southeastern Pacific fjords

Mario Moreno-Pino, Bernd Krock, Rodrigo De la Iglesia, Isidora Echenique-Subiabre, Gemita Pizarro, Mónica Vásquez, Nicole Trefault

PII: S0041-0101(18)30289-7

DOI: [10.1016/j.toxicon.2018.06.078](https://doi.org/10.1016/j.toxicon.2018.06.078)

Reference: TOXCON 5922

To appear in: *Toxicon*

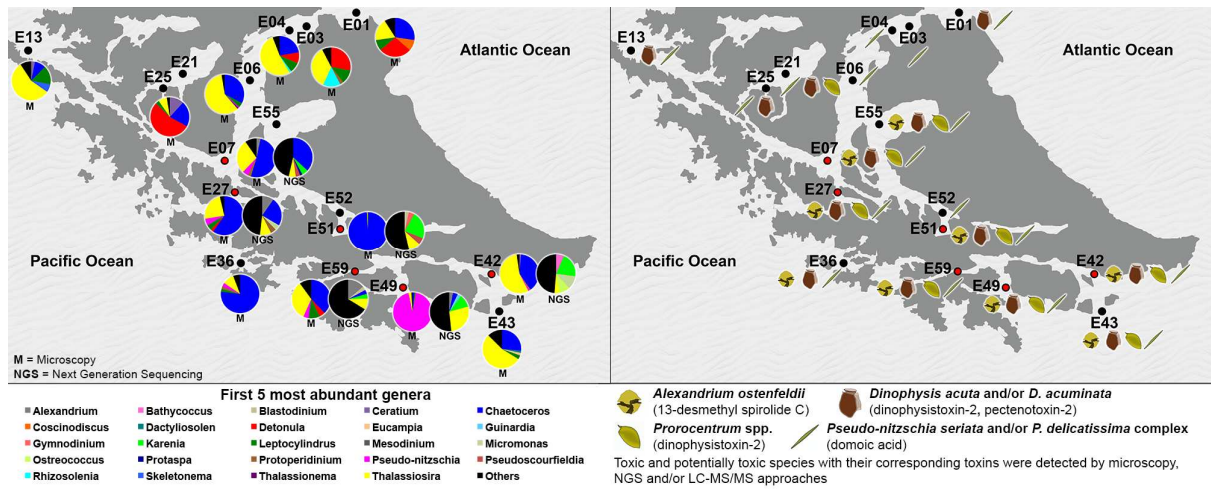

Received Date: 5 December 2017

Revised Date: 17 May 2018

Accepted Date: 18 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
