

Accepted Manuscript

Two new cases of mitochondrial myopathy with exercise intolerance, hyperlactatemia and cardiomyopathy, caused by recessive SLC25A4 mutations

Anouk Tosserams, Constantinos Papadopoulos, Claude Jardel, Isabelle Lemi re, Norma B. Romero, Pascale De Lonlay, Karim Wahbi, Nicol Voermans, Jean-Yves Hogrel, Pascal Lafor t

PII: S1567-7249(16)30193-3
DOI: doi: [10.1016/j.mito.2017.08.009](https://doi.org/10.1016/j.mito.2017.08.009)
Reference: MITOCH 1216
To appear in: *Mitochondrion*
Received date: 17 September 2016
Revised date: 23 July 2017
Accepted date: 15 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Two New Cases of Mitochondrial Myopathy with Exercise Intolerance, Hyperlactatemia
and Cardiomyopathy, Caused by Recessive *SLC25A4* Mutations**
