Inactivation of Pif1 helicase causes a mitochondrial myopathy in mice

Sylvie Bannwarth, Laetitia Berg-Alonso, Gaëlle Augé, Konstantina Fragaki, Jill E. Kolesar, Françoise Lespinasse, Sandra Lacas-Gervais, Fanny Burel-Vandenbos, Elodie Villa, Frances Belmonte, Jean-François Michiels, Jean-Ehrland Ricci, Romain Gherardi, Lea Harrington, Brett A. Kaufman, Véronique Paquis-Flucklinger

PII: S1567-7249(16)30008-3
DOI: doi: [10.1016/j.mito.2016.02.005](https://doi.org/10.1016/j.mito.2016.02.005)
Reference: MITOCH 1066

To appear in: *Mitochondrion*

Received date: 22 May 2015
Revised date: 19 February 2016
Accepted date: 19 February 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
