Title: Likelihood of pregnancy after the transfer of embryos derived from follicle aspiration and *in vitro* embryo production sessions with different relative efficiencies

Authors: Luiz Fernando Feres, Luiz Gustavo Bruno Siqueira, Miller Pereira Palhao, Livia Loiola dos Santos, Felipe Zandonadi Brandao, Joao Henrique Moreira Viana

PII: S0378-4320(18)30154-4
DOI: <https://doi.org/10.1016/j.anireprosci.2018.04.065>
Reference: ANIREP 5828

To appear in: *Animal Reproduction Science*

Received date: 9-2-2018
Revised date: 6-4-2018
Accepted date: 11-4-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Likelihood of pregnancy after the transfer of embryos derived from follicle aspiration
and *in vitro* embryo production sessions with different relative efficiencies**
