Rapid Degradative Effect of Microbially Synthesized Silver Nanoparticles on Textile Dye in Presence of Sunlight

P Jishma, Rakhie Narayanan, S Snigdha, Roshmi Thomas, EK Radhakrishnan

www.elsevier.com/locate/bab

PII: S1878-8181(17)30646-1
DOI: <https://doi.org/10.1016/j.bcab.2018.04.007>
Reference: BCAB743

To appear in: *Biocatalysis and Agricultural Biotechnology*

Received date: 15 December 2017
Revised date: 4 April 2018
Accepted date: 8 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Rapid Degradative Effect of Microbially Synthesized Silver Nanoparticles on Textile Dye in Presence of Sunlight
