Title: Advances in control of food mixing operations

Author: P.J. Cullen Serafim Bakalis C. Sullivan

PII: S2214-7993(17)30175-3

DOI: <https://doi.org/doi:10.1016/j.cofs.2017.11.002>

Reference: COFS 293

To appear in:

Received date: 24-3-2017

Revised date: 6-9-2017

Accepted date: 6-11-2017

Please cite this article as: Cullen, P.J., Bakalis, S., Sullivan, C., Advances in control of food mixing operations, *COFS* (2017), <https://doi.org/10.1016/j.cofs.2017.11.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1. Challenges in powder and fluid mixing
2. Novel sensors to monitor and control mixing
3. Process analytical Technology for mixing and blending
