

Accepted Manuscript

Title: Next Generation Sequencing: Problems and opportunities for next generation studies of microbial communities in food and food industry

Author: Gianluigi Cardinali Laura Corte Vincent Robert

PII: S2214-7993(17)30024-3
DOI: <https://doi.org/doi:10.1016/j.cofs.2017.09.009>
Reference: COFS 273

To appear in:

Received date: 5-7-2017
Revised date: 10-9-2017
Accepted date: 13-9-2017

Please cite this article as: Cardinali, G., Corte, L., Robert, V., Next Generation Sequencing: Problems and opportunities for next generation studies of microbial communities in food and food industry, *COFS* (2017), <https://doi.org/10.1016/j.cofs.2017.09.009>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Next Generation Sequencing: problems and opportunities for next generation studies of microbial communities in food and food industry

Gianluigi Cardinali^{1,2*}, Laura Corte¹ and Vincent Robert³

¹Dipartimento Scienze Farmaceutiche, - University of Perugia,

²CEMIN - University of Perugia, – Perugia Borgo XX Giugno, 74 I 06121 Perugia – Italy,

³Westerdijk Fungal Biodiversity Institute – Utrecht –NL

Running Title: NGS to study food microbial communities

Key words: NGS, Fungi, food, taxonomy, identification, microbiota
