

Accepted Manuscript

Biotechnological production of hyperforin for pharmaceutical formulation

Mariam Gaid, Eline Biedermann, Jendrik Füller, Paul Haas, Sönke Behrends, Rainer Krull, Stephan Scholl, Ute Wittstock, Christel Müller-Goymann, Ludger Beerhues

PII: S0939-6411(17)30092-9
DOI: <http://dx.doi.org/10.1016/j.ejpb.2017.03.024>
Reference: EJPB 12479

To appear in: *European Journal of Pharmaceutics and Biopharmaceutics*

Received Date: 18 January 2017
Revised Date: 28 March 2017
Accepted Date: 29 March 2017

Please cite this article as: M. Gaid, E. Biedermann, J. Füller, P. Haas, S. Behrends, R. Krull, S. Scholl, U. Wittstock, C. Müller-Goymann, L. Beerhues, Biotechnological production of hyperforin for pharmaceutical formulation, *European Journal of Pharmaceutics and Biopharmaceutics* (2017), doi: <http://dx.doi.org/10.1016/j.ejpb.2017.03.024>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Review article

Biotechnological production of hyperforin for pharmaceutical formulation

Contents

1. Introduction	2
2. Commercial formulations	3
3. Extraction and stability	3
4. Pharmacological potential	5
5. Localization in plants	7
6. Cell suspension and shoot cultures	7
7. Root cultures and bioreactor scale	9
8. Towards production in heterologous systems	11
9. Discovery of biosynthetic genes	12
10. Impact of gene identification on drug discovery	12
11. Conclusions	13
