Research paper

A hybrid approach to predict the relationship between tablet tensile strength and compaction pressure using analytical powder compression

Ann-Sofie Persson, Göran Alderborn

PII: S0939-6411(17)31162-1
DOI: <https://doi.org/10.1016/j.ejpb.2017.12.011>
Reference: EJPB 12651

To appear in: *European Journal of Pharmaceutics and Biopharmaceutics*

Received Date: 10 October 2017
Revised Date: 18 December 2017
Accepted Date: 20 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A hybrid approach to predict the relationship between tablet tensile strength and compaction pressure using analytical powder compression

Ann-Sofie Persson* and Göran Alderborn
