Title: *Acanthamoeba* spp as a universal host for pathogenic microorganisms: one bridge from environment to host virulence

Author: Allan J. Guimaraes Kamilla Xavier Gomes Juliana Reis Cortines José Mauro Peralta Regina H.Saramago Peralta

PII: S0944-5013(16)30518-3
DOI: <http://dx.doi.org/doi:10.1016/j.micres.2016.08.001>
Reference: MICRES 25931

To appear in:

Received date: 2-3-2016
Revised date: 2-6-2016
Accepted date: 1-8-2016

Please cite this article as: Guimaraes Allan J, Gomes Kamilla Xavier, Cortines Juliana Reis, Peralta José Mauro, Peralta Regina H.Saramago. *Acanthamoeba* spp as a universal host for pathogenic microorganisms: one bridge from environment to host virulence. *Microbiological Research* <http://dx.doi.org/10.1016/j.micres.2016.08.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***Acanthamoeba* spp as a universal host for pathogenic microorganisms: one bridge from environment to host virulence**
