Single-cell RNA sequencing reveals metallothionein heterogeneity during hESC differentiation to definitive endoderm

Junjie Lu, Anna Baccei, Edroaldo Lummertz da Rocha, Christelle Guillermier, Sean McManus, Lydia A. Finney, Cheng Zhang, Matthew L. Steinhauser, Hu Li, Paul H. Lerou

PII: S1873-5061(18)30021-7
DOI: doi:[10.1016/j.scr.2018.01.015](https://doi.org/10.1016/j.scr.2018.01.015)
Reference: SCR 1136
To appear in: *Stem Cell Research*
Received date: 9 May 2017
Revised date: 4 December 2017
Accepted date: 11 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
