Epi-nutrients in the oviductal environment: Folate levels and differential gene expression of its receptors and transporters in the bovine oviduct

Elina V. García, María E. Oliva, Jean G. LeBlanc, Antonio D. Barrera

PII: S0093-691X(18)30261-9

DOI: [10.1016/j.theriogenology.2018.07.008](https://doi.org/10.1016/j.theriogenology.2018.07.008)

Reference: THE 14622

To appear in: *Theriogenology*

Received Date: 26 May 2018

Revised Date: 2 July 2018

Accepted Date: 8 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Epi-nutrients in the oviductal environment: folate levels and**
2 **differential gene expression of its receptors and transporters**
3 **in the bovine oviduct**
