8 This project was supported by Agriculture and Food Research Initiative Competitive Grant no.
9 2009-65203-05812 from the USDA National Institute of Food and Agriculture and Hatch Project
10 number ND01782. The authors thank the employees of the NDSU Animal Nutrition and
11 Physiology Center and Meat Laboratory. The authors would also like to thank several NDSU
12 Animal Sciences faculty, staff, graduate students, and undergraduate students for their assistance
13 with tissue collection. Also, special thanks to Rachel Lagein for performing the placentome
14 cellular proliferation analysis. Image analysis was conducted in the NDSU Advanced Imaging
15 Microscopy laboratory.
