

Accepted Manuscript

Source, treatment and type of nuclear donor cells influences in vitro and in vivo development of embryos cloned by somatic cell nuclear transfer in camel (*Camelus dromedarius*)

Nisar A. Wani, Seung B. Hong

PII: S0093-691X(17)30484-3

DOI: [10.1016/j.theriogenology.2017.10.010](https://doi.org/10.1016/j.theriogenology.2017.10.010)

Reference: THE 14293

To appear in: *Theriogenology*

Received Date: 5 July 2017

Revised Date: 5 October 2017

Accepted Date: 7 October 2017

Please cite this article as: Wani NA, Hong SB, Source, treatment and type of nuclear donor cells influences in vitro and in vivo development of embryos cloned by somatic cell nuclear transfer in camel (*Camelus dromedarius*), *Theriogenology* (2017), doi: 10.1016/j.theriogenology.2017.10.010.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Revised

Source, treatment and type of nuclear donor cells influences in vitro and in vivo development of embryos cloned by Somatic Cell Nuclear Transfer in camel (*Camelus dromedarius*)
