Relationships between amylopectin internal molecular structure and physicochemical properties of starch

Fan Zhu

PII: S0924-2244(18)30167-5

DOI: [10.1016/j.tifs.2018.05.024](https://doi.org/10.1016/j.tifs.2018.05.024)

Reference: TIFS 2238

To appear in: *Trends in Food Science & Technology*

Received Date: 11 March 2018

Revised Date: 14 April 2018

Accepted Date: 31 May 2018

Please cite this article as: Zhu, F., Relationships between amylopectin internal molecular structure and physicochemical properties of starch, *Trends in Food Science & Technology* (2018), doi: 10.1016/j.tifs.2018.05.024.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
