Circulating tumor cell-derived organoids: Current challenges and promises in medical research and precision medicine

Prakash P. Praharaj, Sujit K. Bhutia, Sunitha Nagrath, Rhonda L. Bitting, Gagan Deep

PII: S0304-419X(17)30210-X

DOI: <https://doi.org/10.1016/j.bbcan.2017.12.005>

Reference: BBACAN 88202

To appear in:

Received date: 23 November 2017

Revised date: 22 December 2017

Accepted date: 22 December 2017

Please cite this article as: Prakash P. Praharaj, Sujit K. Bhutia, Sunitha Nagrath, Rhonda L. Bitting, Gagan Deep, Circulating tumor cell-derived organoids: Current challenges and promises in medical research and precision medicine. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Bbcan(2017), <https://doi.org/10.1016/j.bbcan.2017.12.005>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Circulating tumor cell-derived organoids: Current challenges and promises in medical research and precision medicine
