Title: Early Reconstitution of NK and $\Gamma\delta$ T Cells and Its Implication for the Design of Post-Transplant Immunotherapy

Author: Moniek A. de Witte, Dhifaf Sarhan, Zachary Davis, Martin Felices, Daniel A. Vallera, Peter Hinderlie, Julie Curtsinger, Sarah Cooley, John Wagner, Jurgen Kuball, Jeffrey S. Miller

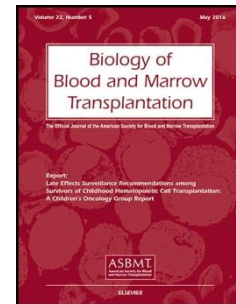

PII: S1083-8791(18)30109-5
DOI: <https://doi.org/10.1016/j.bbmt.2018.02.023>
Reference: YBBMT 55050

To appear in: *Biology of Blood and Marrow Transplantation*

Received date: 5-1-2018
Accepted date: 26-2-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Early reconstitution of NK and $\gamma\delta$ T cells and its implication for the design of post-transplant immunotherapy
