Title: Blood and Marrow Transplant Clinical Trials Network Report on Development of Novel Endpoints and Selection of Promising Approaches for Graft-Versus-Host Disease Prevention Trials

Author: Marcelo C. Pasquini, Brent Logan, Richard J. Jones, Amin M. Alousi, Frederick R. Appelbaum, Javier Bolaños-Meade, Mary E.D. Flowers, Sergio Giralt, Mary M. Horowitz, David Jacobsohn, John Koreth, John E. Levine, Leo Luznik, Richard Maziarz, Adam Mendizabal, Steven Pavletic, Miguel-Angel Perales, David Porter, Ran Reshef, Daniel Weisdorf, Joseph H. Antin

PII: S1083-8791(18)30002-8
DOI: <https://doi.org/10.1016/j.bbmt.2018.01.002>
Reference: YBBMT 54988

To appear in: *Biology of Blood and Marrow Transplantation*

Received date: 2-11-2017
Accepted date: 2-1-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**BLOOD AND MARROW TRANSPLANT CLINICAL TRIALS NETWORK REPORT ON DEVELOPMENT OF
NOVEL ENDPOINTS AND SELECTION OF PROMISING APPROACHES FOR GRAFT-VERSUS-HOST DISEASE
PREVENTION TRIALS**
