Title: Matrix Metalloproteinase-9 in Monocytic Myeloid-Derived Suppressor Cells Correlate with Early Infections and Clinical Outcomes in Allogeneic Hematopoietic Stem Cell Transplantation

Author: Sung-Eun Lee, Ji-Young Lim, Tae Woo Kim, Young-Woo Jeon, Jae-Ho Yoon, Byung-Sik Cho, Ki-Seong Eom, Yoo-Jin Kim, Hee-Je Kim, Seok Lee, Seok-Goo Cho, Dong-Wook Kim, Jong Wook Lee, Woo-Sung Min, Dong-Mi Shin, Eun Young Choi, Chang-Ki Min

PII: S1083-8791(17)30652-3
DOI: <http://dx.doi.org/doi: 10.1016/j.bbmt.2017.08.017>
Reference: YBBMT 54769

To appear in: *Biology of Blood and Marrow Transplantation*

Received date: 3-7-2017
Accepted date: 12-8-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Matrix metalloproteinase-9 in monocytic myeloid-derived suppressor cells correlate with early infections and clinical outcomes in allogeneic hematopoietic stem cell transplantation

Running title: MMP-9 in M-MDSCs after allo-HSCT
