Title: High Dose Melphalan and Stem Cell Transplantation in Patients on Dialysis Due to AL Amyloidosis and Monoclonal Immunoglobulin Deposition Disease

Author: Felipe Batalini, Laura Econimo, Karen Quillen, J. Mark Sloan, Shayna Sarosiek, Dina Brauneis, Andrea Havasi, Lauren Stern, Laura Dember, Vaishali Sanchorawala

PII: S1083-8791(17)30684-5  
DOI: <http://dx.doi.org/doi: 10.1016/j.bbmt.2017.08.031>  
Reference: YBBMT 54783

To appear in: *Biology of Blood and Marrow Transplantation*

Received date: 5-6-2017  
Accepted date: 24-8-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**FULL LENGTH ARTICLE****High dose melphalan and stem cell transplantation in patients on dialysis due to AL amyloidosis and monoclonal immunoglobulin deposition disease**
