Clinical, laboratory and imaging findings in Castleman's disease –
The subtype decides

Michael Haap, Julia Wiefels, Marius Horger, Annika Hoyer,
Karsten Müssig

PII: S0268-960X(17)30039-5
DOI: doi:[10.1016/j.blre.2017.11.005](https://doi.org/10.1016/j.blre.2017.11.005)
Reference: YBLRE 513

To appear in:

Please cite this article as: Michael Haap, Julia Wiefels, Marius Horger, Annika Hoyer, Karsten Müssig , Clinical, laboratory and imaging findings in Castleman's disease – The subtype decides. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Yblre(2017), doi:[10.1016/j.blre.2017.11.005](https://doi.org/10.1016/j.blre.2017.11.005)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Clinical, laboratory and imaging findings in Castleman's disease – the subtype decides
