The pathobiology of primary testicular diffuse large B-cell lymphoma: Implications for novel therapies

David D.W. Twa, Anja Mottok, Kerry J. Savage, Christian Steidl

PII: S0268-960X(17)30068-1

DOI: doi:[10.1016/j.blre.2017.12.001](https://doi.org/10.1016/j.blre.2017.12.001)

Reference: YBLRE 515

To appear in:

Please cite this article as: David D.W. Twa, Anja Mottok, Kerry J. Savage, Christian Steidl , The pathobiology of primary testicular diffuse large B-cell lymphoma: Implications for novel therapies. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Yblre(2017), doi:[10.1016/j.blre.2017.12.001](https://doi.org/10.1016/j.blre.2017.12.001)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The pathobiology of primary testicular diffuse large B-cell lymphoma: Implications for novel therapies

David D. W. Twa^{a,b}, Anja Mottok^{a,b}, Kerry J. Savage^a and Christian Steidl^{a,b}
