MDM2 Antagonists Counteract Drug-Induced DNA Damage

Anna E. Vilgelm, Priscilla Cobb, Kiran Malikayil, David Flaherty, C. Andrew Johnson, Dayanidhi Raman, Nabil Saleh, Brian Higgins, Brandon A. Vara, Jeffrey N. Johnston, Douglas B. Johnson, Mark C. Kelley, Sheau-Chiann Chen, Gregory D. Ayers, Ann Richmond

PII: S2352-3964(17)30369-9
DOI: doi: [10.1016/j.ebiom.2017.09.016](https://doi.org/10.1016/j.ebiom.2017.09.016)
Reference: EBIOM 1193
To appear in: *EBioMedicine*
Received date: 9 June 2017
Revised date: 12 September 2017
Accepted date: 14 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

MDM2 antagonists counteract drug-induced DNA damage
