

# Accepted Manuscript

Fibrotic scarring following lesions to the central nervous system

David Oliveira Dias, Christian Göritz

PII: S0945-053X(17)30480-8

DOI: <https://doi.org/10.1016/j.matbio.2018.02.009>

Reference: MATBIO 1434

To appear in:

Received date: 20 December 2017

Revised date: 5 February 2018

Accepted date: 5 February 2018

Please cite this article as: David Oliveira Dias, Christian Göritz , Fibrotic scarring following lesions to the central nervous system. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Matbio*(2017), <https://doi.org/10.1016/j.matbio.2018.02.009>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
