Roles of Ihh signaling in chondroprogenitor function in postnatal condylar cartilage

Naito Kurio, Cheri Saunders, Till E. Bechtold, Imad Salhab, Hyun-Duck Nah, Sayantani Sinha, Paul C. Billings, Maurizio Pacifici, Eiki Koyama

PII: S0945-053X(18)30012-X

DOI: <https://doi.org/10.1016/j.matbio.2018.02.011>

Reference: MATBIO 1436

To appear in:

Received date: 8 January 2018

Revised date: 9 February 2018

Accepted date: 10 February 2018

Please cite this article as: Naito Kurio, Cheri Saunders, Till E. Bechtold, Imad Salhab, Hyun-Duck Nah, Sayantani Sinha, Paul C. Billings, Maurizio Pacifici, Eiki Koyama , Roles of Ihh signaling in chondroprogenitor function in postnatal condylar cartilage. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Matbio(2017), <https://doi.org/10.1016/j.matbio.2018.02.011>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Roles of Ihh signaling in chondroprogenitor function in postnatal condylar cartilage
